DETAILED ACTION

Election/Restrictions

1. Claims 7-11 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse on 10-31-05.

Claim Rejections - 35 USC § 102

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by McCullough, Jr. et al. (4,965,146).

McCullough et al. teaches in claims 1-2, a battery comprising an anode comprising an alkali metal, alkali metal alloy, a cathode and a separator surrounding the anode where the separator is coated with a film of lithium nitride. McCullough et al. teaches in claim 6 that the alkali metal is lithium.

Claim Rejections - 35 USC § 103

3. Claim 5 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over McCullough, Jr. et al. (4,965,146).

McCullough et al. teaches in claims 1-2, a battery comprising an anode comprising an alkali metal, alkali metal alloy, a cathode and a separator surrounding the anode where the separator is coated with a film of lithium nitride. McCullough et al. teaches in claim 6 that the alkali metal is lithium.

In the event any differences can be shown for the product of the product by process claim 5, as opposed to the product taught by McCullough et al., such differences would have been obvious to one of ordinary skill in the art as a routine modification of the product in the absence of a showing of unexpected results. *In re Thrope* 227 USPQ 964; (*Fed. Cir.* 1985).

With respect to the product by process claims 5, the determination of patentability is based upon the product itself not upon the method of its production. *In re Thrope* 227 USPQ 964; *In re Brown* 173 USPQ 685; *In re Bridgeford* 149 USPQ 55; *In re Wertheim* 191 USPQ 90. Any difference imparted by the product by process limitations would have been obvious to one having ordinary skill in the art at the time the invention was made because where the Examiner has found a substantially similar product as in the applied prior art, the burden of proof is shifted to the Applicants to establish that their product is patentably distinct. *In re Brown* 173 USPQ 685 and *In re Fessmann* 180 USPQ 324.

4. Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over McCullough, Jr. et al. (4,965,146).

McCullough et al. teaches the claimed invention except does not specify that the lithium nitride film has a thickness of 0.01-5 um but it would be within the skill of the ordinary person to have a layer of thickness of 0.01-5 um depending on the efficiency and cost requirements.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to have a lithium nitride layer thickness of 0.01-5 μm , since it has been held that where general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranges involves only routine skill in the art. *In re Aller*, 105 USPQ 233.

Allowable Subject Matter

5. Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
